Ready to Use

No need to spend time on assembly. Plug in and start using!

Protection and Safety

: Locking doors ensuring the safety of all electrical com-ponents.

Sturdiness

Structures of resistant manufacture, fireproof and with wheels that allow mo-bility in continuous use.

Universal

guaranteed compatibility with different devices.

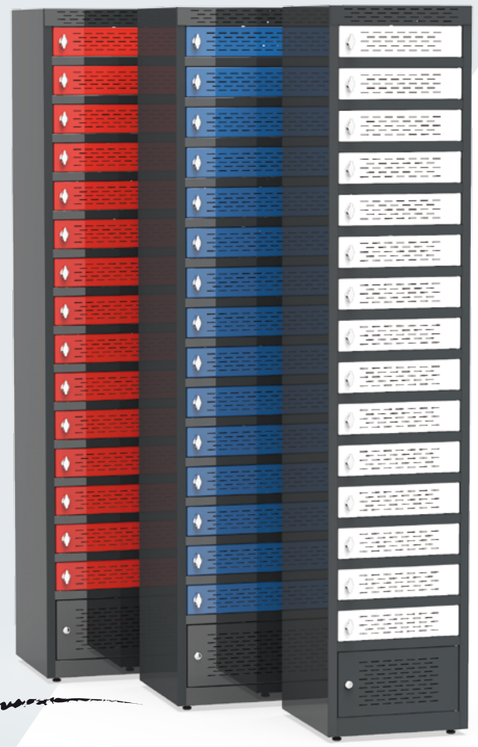
Accessibility

Wide doors and shelves that allow easy access to devices.

NETBOOK

NETBOOK

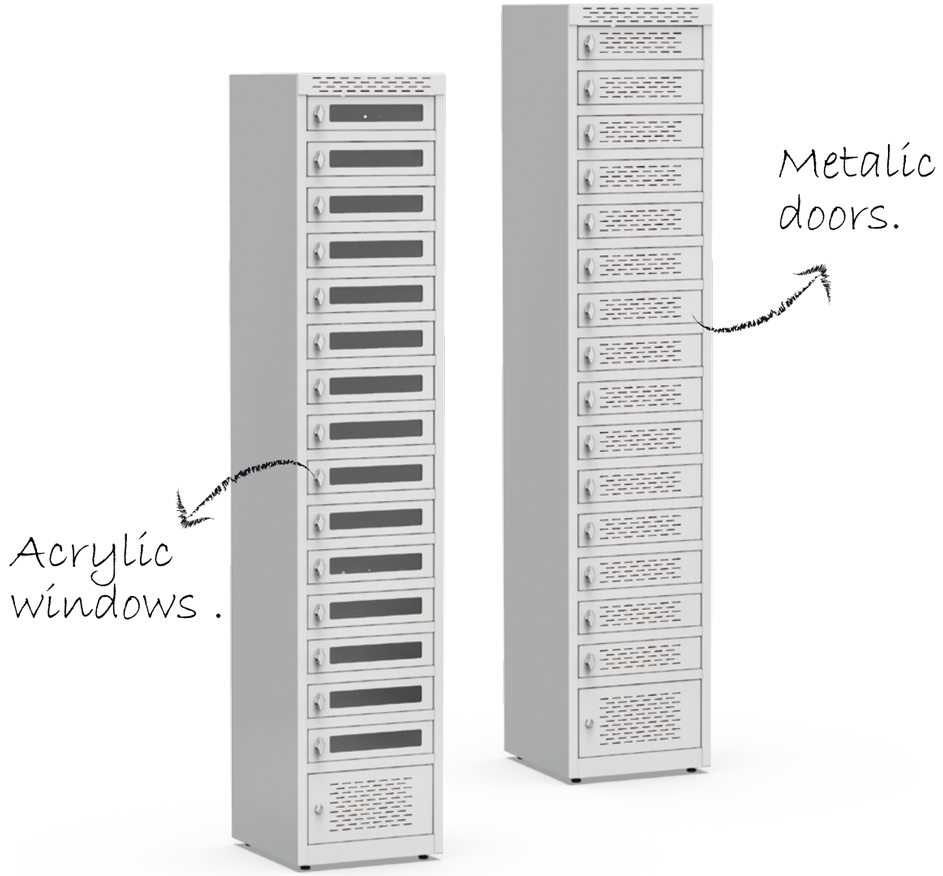
NB15



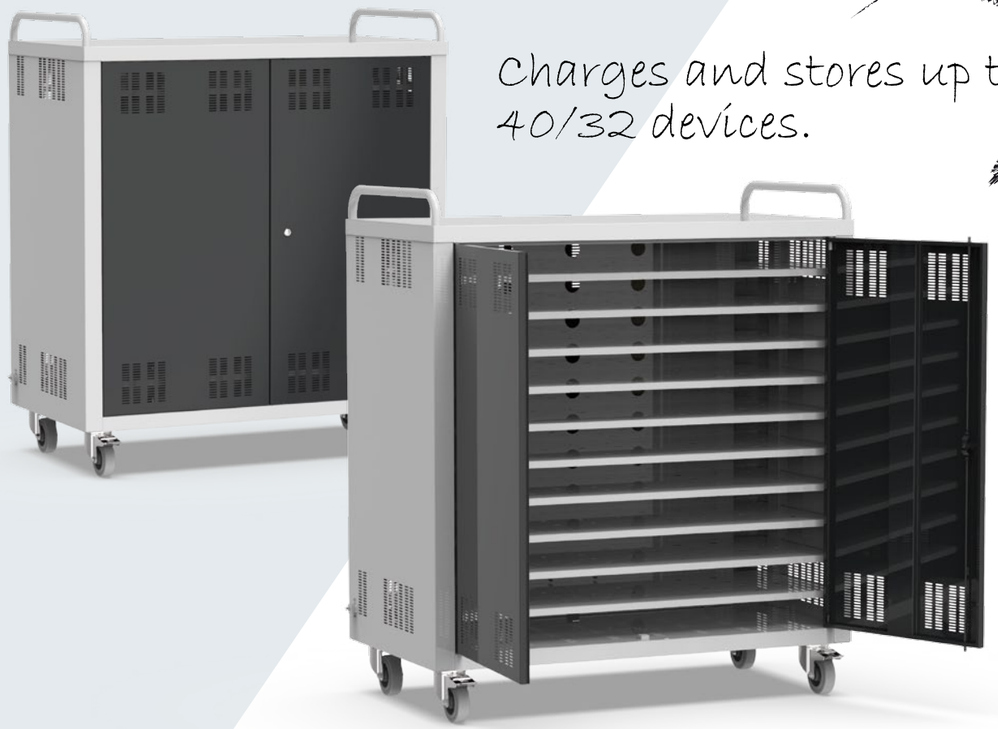
Charges and stores up to 15 devices.

NETBOOK NB15

- Steel sheet structure with epoxy paint finish
- 15 doors 310x375x80 mm with perforation for ventilation
- Charging capacity for 15 devices up to 14 “(1 per compartment)
- Tab lock for padlock in each compartment
- Lower compartment isolated and with key lock for electrical panel
- Charging via simple sockets
- Protection with 25 to 30mA differential and circuit breakers
- Ground support using levelers
- Dimensions 380x400x1850mm



NETBOOK
BUS



Charges and stores up to
40/32 devices.

NETBOOK BUS 40

- Charging capacity: 40 devices up to 17 “
- Contains 14 spaces with useful dimensions of: 1070 (W) x410 (D) x51 (H) mm
- Placement capacity of 3 devices per level

Weight: 98 kg
Dimensions: 1100 x 640 x 1250 mm

NETBOOK BUS 32

- Charging capacity: 32 devices up to 17 “
- Contains 11 spaces with useful dimensions of: 1070 (W) x 410 (D) x70 (H) mm
- Placement capacity of 3 devices per level

Weight: 88 kg
Dimensions 1100 x 640 x 1250 mm

Charges and stores up to
24 devices.

NETBOOK BUS 24

- Charging capacity: 24 devices up to 17 “.
- Contains 12 spaces with useful dimensions of: 670 (W) x 410 (D) X63 (H) mm
- Placement capacity of 2 devices per level.

Weight: 64 kg
Dimensions: 700 x 640 x 1250 mm

NETBOOK BUS 16

- Charging capacity: 16 devices up to 17 “.
- Contains 8 spaces with useful dimensions of: 670 (W) x 410 (D) 103 (H) mm
- Placement capacity of 2 devices per level.

Weight: 55 kg
Dimensions: 700 x 640 x 1250 mm

Charges and stores up to
16 devices.

NETBOOK
BUS
