FURNITURE CATALOG
FOR STUDENT RESIDENCES

With over 25 years of experience in furniture production, Nautilus is a leader in school furniture and education and training technologies in the Iberian market.

We offer a broad range of solutions, including furniture for schools, offices, auditoriums, laboratories, museums, and more.

Our collection of furniture for Students residences has been designed with focus on comfort, functionality, and durability.

PRODUCTION LINES

Carpentry

Our pieces go through experienced hands, followed by a finishing line that allows a superior quality.

Metalworking

Tube and sheet metal transformation with epoxy painting finishes.

Polymer injection

Fully automated gas-assisted injection line to enable mass production efficiently.

STUDIES AND PROJECTS

Our ambition is to create timeless, functional and distinctive design furniture. That's why we nurture the talent, both in inspiration and creativity of a carefully chosen group of designers. The NAUTILUS design and product development team works together with clients in a collaborative process of **custom design that includes 2D and 3D layout development.**
